RT Pro UTV recommends this system be installed by a professional technician. In addition to these instructions, professional knowledge of disassembly/ reassembly procedures and post installation checks must be known.

---

### **WHY BUY RT PRO UTV**

Great off-road driving and racing comes with having the most rugged and durable machine in the pack.

RT Pro UTV performance enhancing products will make your off-road machine stronger, tougher and safer so you can have more fun and less breakdowns.

For over a decade, RT Pro UTV staff have been taking brand new UTVs and driving them to their breaking point. When they bend, break or falter, we take them back to shop and create a fix that stops the problem from happening again.

There is no other company in the industry that puts more thought, engineering and design innovation into their products than we do. Our team is made up of off-road racers, mechanical engineers and talented fabricators who live and breathe all things motorsport. Above all, we share a passion for innovation, quality construction and getting things right.

All of our products are designed for assembly by weekend warriors with normal garage tools and the occasional spot-weld. Assembly directions are complete and thorough.

Remember, when you buy a RT Pro UTV product for your UTV, all of the parts have been designed and manufactured in the United States with U.S. steel and other high quality American components.

RTP5401727

### FITMENT NOTES

Fits all 2015+ RZR 900 / 1000S models including 4 seat

### SPECIAL TOOLS

3/8" Drill bit

### INSTALLATION TIME

Approximately 2 hours  
Easy/medium Difficulty

# INSTALLATION INSTRUCTIONS

1. First, drill through the two holes on the top tubes of the frame using a 3/8 DRILL BIT. Take the two rear caps off the rear plastic and slide the rigid arms through the back plastic and into the square tube. Install the 3/8-16 X 1 BHCS into the rigid arms.

**Figure 1**

2. Next, fit up the rear bumper onto the rear, guiding the rigid arm plates into the boxed area of the bumper and aligning the bottom plate holes to the stock weld nuts on the frame.

**Figure 2**

*Note: Hitch mount not included with any bumper.*

**Figure 3**

**Figure 4**

*Note: Winch mount and hoop kit not included with bumper.*

3. Install 3/8" button head screws to connect rigid arms to bumper as shown above.

---
